Subject: RHNA Methodology

My Name is Steve Stowell and I am furious that you are changing your methodology once again to increase the number of housing in Yorba Linda. I oppose the revised RHNA methodology which increases the City of Yorba Linda's RHNA obligation from 207 housing units to 2,322 housing units. I am contacting my state representatives.

This is Ridiculous. We don't have a housing problem, we have 250,000 less people net in California this next year. Stop the illegal immigration and affordable housing will become available. Being Homeless is a choice for the 80% of the homeless, and the homeless problem is a mental problem, not a housing problem. There were 1 million+ immigrants that came across the border last year in California, you don't see all the illegal immigrants homeless!
