Subject: housing requirements in Yorba Linda

To whom it may concern:

I was just made aware that a last minute substitute motion was made, adding 75,000 additional units into Orange County, increasing Yorba Linda's allocation to 2,322 dwelling units, a 1,120% increase. This is OUTRAGEOUS AND UNACCEPTABLE!! Our little town can't possible absorb that amount of people without becoming overcrowded and negatively affecting property values, let alone there is not enough space! Even for the low income apartment type homes you are likely looking for us to build. We will NOT accept this. We will do whatever we can to fight this!
